LG1+	234	235	236	228

Recommended spoke tension 110-130kgf

1. All lengths in millimeters
2. Spoke lengths for complete e*13 wheels only. Other component combinations may use different spoke lengths. Contact your local wheel builder for other spoke lengths
3. Gen 1 wheels use 21mm inner width rims, gen 2 wheels use 24mm inner width rims
